### **BLDSC to Partner with SilverPlatter**

The British Library Document Supply Centre (BLDSC) and SilverPlatter Information have announced a partnership to provide document delivery service to libraries in conjunction with SilverPlatter's bibliographic databases. Links to provide document delivery are a component of SilverLinker, SilverPlatter's new suite of linking technologies.

The British Library and its Document Supply Centre currently subscribe to almost 50,000 journals covering most countries, languages and subjects. Articles can be ordered via a direct link in SilverPlatter's bibliographic records. Researchers can order specific articles identified by searching SilverPlatter databases directly from BLDSC. Documents are sent via first-class mail within 48 hours after the centre receives the request. Documents can also be faxed.

The services are available only to institutions registered with the BLDSC.

### **Contemporary Women's Issues Discounted**

High schools are now eligible for a 50 percent discount from SilverPlatter for subscribing to Contemporary Women's Issues, the database from RDS (Responsive Database Services) for researching women's topics. It is a powerful resource for researching international literature on women's issues, covering more than 600 sources and 130 countries.

The full text is selected from the alternative press, hard-to-find reports, government reports, journals, newsletters, pamphlets, legislative actions and reviews.

### **New Business Databases Discounted**

Find the latest market and industry information in SilverPlatter's Business and Industry and Business and Management Practices database. Academic and public libraries are eligible to receive 40 percent off these new business databases from RDS.

### **SilverPlatter Discontinues AGRISEARCH**

Effective immediately, SilverPlatter is discontinuing the production of the AGRISEARCH database. No new orders or renewals of this product are being accepted.

### **SilverPlatter Revises INSPEC Pricing**

SilverPlatter has revised the pricing of INSPEC database for academic institutions. Site license subscriptions are now \$29,500. For multi-site and consortia price quotes, please contact BCR.

*(For questions or to subscribe to any reference database -- CD-ROM, online or Internet-accessible -- contact BCR's [Jim Hensinger](#) or [Karen Graham](#).)*
